SECURE ID AND CARD PERSONALIZATION SOLUTIONS

# OUTSTANDING PERFORMANCE THAT PROTECTS YOUR INVESTMENT

Designed to produce high-quality cards with exceptional efficiency, the Datacard® MX2000™ card issuance system is a smart choice for cost-conscious card issuers worldwide. This modular system includes the essential technologies you need to personalize cards with high productivity and reliability at speeds up to 1,000 cards per hour. Start with the capabilities you need today, then expand the MX2000 system as your needs evolve. No matter what configuration you choose, the MX2000 system delivers many of the same operational advantages as our higher-volume card issuance systems for an extremely competitive price.

## MX2000 SYSTEM HIGHLIGHTS

### System software

The MX2000 system uses a familiar Windows® operating system and an easy-to-navigate graphical user interface to simplify training and operation.

### Graphics printing

Print high-quality text, bar codes, logos and other monochrome images that enhance the visual appeal of every card you issue.

### Embossing and topping

The MX2000 system helps ensure card quality with consistent, highly accurate embossing and indent printing. Color topping enhances readability and the appearance of embossed characters.

### Smart cards and magnetic stripes

Personalize contact and contactless smart cards quickly and securely, and employ a full range of magnetic stripe encoding features.

### Topcoat application

Apply Datacard® CardGard™ UV-curable topcoats to protect graphics printing and extend card life.

### Comprehensive security

Because security is paramount, the MX2000 system provides multiple ways to safeguard cardholder data, production data and access to the system itself.

# AFFORDABLE ADVANCED TECHNOLOGY

# THE RIGHT CHOICE FOR RELIABLE CARD ISSUANCE

## IMPORTANT OPERATIONAL ADVANTAGES

- PREMIUM CARD QUALITY
- HIGH RELIABILITY
- MODULAR DESIGN
- STRONG SECURITY
- GLOBAL SERVICE AND SUPPORT
- DATACARD® CERTIFIED SUPPLIES
